

## **Environmental Department**

### **Employee of the Month**

**January, 2011**

### **SAM MCGREGOR**

Sam has been with the City since 2007 and has served with the special services crew as an alternate driver. As part of Sam's

responsibilities he has learned the procedures and details of each type of truck used for refuse or recycling collection. His assignments vary each week and even daily and he has learned to be flexible and adapt to each new days assignment with ease and confidence. He is always a team player, going the extra mile to help his co-workers where ever needed each day. Sam takes pride in his work and approaches his tasks with a determination to do well in all he does. Sam has been helpful to the Landfill staff as well, reporting contaminated loads and hazardous materials which help us keep unwanted items out of the main waste stream. We can always count on Sam to be friendly, helpful and dependable. Congratulations, Sam.
