MEMORANDUM TO THE MUNICIPAL COUNCIL

DATE: September 8, 2003
FROM: Michelle N. Mechem, Planner II
SUBJECT: Amendment to the text of the Land Development Code – Section 17.17.020 – Primary Uses Allowed in Economic Development Districts

Summary of Planning Commission Proceedings
On August 28, 2003 the Planning Commission recommended approval for an amendment to the Economic Use Chart in §17.17.020 of the Land Development Code. The proposed code amendment would change vehicle sales from a “Permitted Use” to a “Conditional Use” in the Commercial General (CG) zoning district. The Planning Commission recommended approval of this code change unanimously.

Staff recommends that the Municipal Council Amend the Land Development Code §17.17.020 as shown below. Added language is highlighted. Deleted language is struck.

Project: Proposed text change to the Land Development Code §17.17.020: Primary uses allowed in Economic Development Zoning Districts

Proponent: Logan City, Department of Community Development

Type of Action: Legislative

Staff Recommendation: Recommend approval of the proposed change to §17.17.020, of the Land Development Code to the Municipal Council.

PROJECT

§17.17.020: Primary uses allowed in Economic Development Zoning Districts establishes what uses are permitted, conditionally permitted, or not permitted within the Economic Zoning Districts. Currently the Land Development Code lists “vehicle sales” as a permitted use in the Commercial General (CG) Zoning District. Because of the recent increase in small-scale car sale lots within the CG Zone, staff is recommending that “vehicle sales” be changed from a permitted use to a conditional use in this zoning district. With the proposed change the Planning Commission will review all future “vehicle sales” applications in the CG zone to ensure their compatibility with the neighborhood and ensure the preservation of the public, health, safety, and general welfare (LDC §17.49.010).

AGENCY AND DEPARTMENTAL COMMENTS

No departmental comments were received for this project.

PUBLIC COMMENTS

A newspaper advertisement was published as public notice for the proposed amendment to the Land Development Code. No comments were received by the Department of Community Development as of the date this staff report was published.

STAFF RECOMMENDATION

Staff recommends that the Planning Commission approve a motion to recommend that the Municipal Council amend Land Development Code section §17.17.020, as shown below. Added language is highlighted. Deleted Language is struck.

RECOMMENDED FINDINGS

The Planning Commission bases its decision on the following findings supported in the administrative record for this project.

1. Utah state law authorizes local planning commissions to recommend ordinance changes to the legislative body (Municipal Council) that are consistent with the role of the Planning Commission.

2. The proposed changes to the Land Development Code are consistent with the Land Development Code.

3. The proposed changes to the Land Development Code will enable the Planning Department to fulfill its obligations and make land use decisions that are consistent with the General Plan and the Land Development Code.

4. The proposed changes to the Land Development Code will prevent unnecessary delays encountered by the public during project permitting and construction.

SUBJECT: River Trails Rezone

Summary of Planning Commission Proceedings

Project Name: River Trails Rezone
Project Address: Approximately 1700 to 1900 West 600 South Street
Request: Rezone to Single Family Traditional
Current Zoning: AG, Agriculture

The proponent has requested a rezone of approximately 19.51 acres of land from the Agriculture zoning district to the Single Family Traditional zoning district. Staff recommended that the Planning Commission recommend approval to the Municipal Council to rezone the parcel from the Agriculture zoning district into the Single Family Traditional-Planned Development Overlay (SFT-PD) district. On September 25, 2003, the Planning Commission voted 5-0 to approve a motion to recommend approval to the Municipal Council of a rezone to the SFT-PD zoning district. Staff has attached the staff report to the Planning Commission and the minutes of the September 25, 2003 Planning Commission Meeting.

03-100 RIVER TRAILS. Rezone. D. Martin Reese, applicant/owner, requests a rezone from the Agriculture (AG) zone to the Single Family Traditional (SFT) zone on 19.51 acres at approx. 1700-1900 West 600 South. TIN#02-077-0001.

STAFF: Staff reviewed the report as written.

Ms. Wickwar asked about the planned development. Are they going to have to cut back on the number of units?

Mr. Butler stated it could be, but they are not in the design phase of the development.

Mr. Ward asked about the density.

Mr. Butler explained.

PROPONENT: Marty Reese. He explained his project. Regarding wildlife habitat and wetlands, there are none. Other than that, he concurs with the staff report.

Mr. Ward stated that can be looked at when he comes in for design review.

Mr. Kartchner discussed the PUD.

Mr. Reese stated he is in contact with the Parks and Recreation department regarding the open space.

Ms. Wickwar asked if PUDs require homeowners association.

Mr. Reese stated he understood the utilities could be maintained by the city.

Mr. Neilsen stated it can go either way, it could be private or public.

PUBLIC: Fred Baugh. He asked about the approval process.

Mr. Ward explained.

Mr. Baugh asked about the flood plain. Does that put the city in liability?

Mr. Housley stated there are separate requirements, but the city is not liable.

Mr. Baugh asked about access. Is it limited?

Mr. Kerr stated the properties to the east have limited access and it will continue.
Ms. Wickwar stated in a PUD, the houses could be clustered and have limited access.

Mr. Baugh asked which direction the homes will face.

Ms. Wickwar stated PUD's have design review and the Planning Commission can place conditions on which direction the homes will face.

Larry Parker. Development causes things for other people. He wants to continue to run a cattle operation. He is still reeling from the other project approved that has caused problems on his property.

Ms. Wickwar asked where his property was located.

Mr. Parker explained.

Ms. Wickwar stated there is a right-to-farm in the city.

Mr. Parker is concerned about the integrity of his fence when they put in the ditch right next to it. It would be nice if the proponent put in a fence to protect both sides.

A discussion took place regarding the irrigation ditch put in and the fence.

Mr. Housley stated staff could check into the ditch.

Mr. Nielson asked Mr. Parker if this was due to their retention pond.

Mr. Parker stated no.

MOTION: Moved to approve a motion to recommend approval of the rezone request to SFT-PD to the Municipal Council.

STAFF: Staff reviewed the project. A discussion took place regarding the project.

Mr. Ward asked about Schreiber's getting a tax break since they already exist.

Mr. Housley stated they do not get a break. It creates a funding source for the city to make improvements.

Mr. Robison asked about the time period.

Mr. Housley stated this encourages development and spurs the development.

Mr. Kartchner asked about Gossner's and why they are not included.

Ms. Morgan asked for clarification on the project.

Mr. Housley stated if the infrastructure is there, it would be cheaper for industry to come in.

PC Docket #03-100
Rezone to Single Family Traditional for the River Trails Rezone
Approximately 1700 to 1900 West 600 South Street
TID #02-077-0001

REPORT SUMMARY...

Project Name: River Trails Rezone
Proponent/Owner: D. Martin Reese
Project Address: Approximately 1700 to 1900 West 600 South Street
Request: A Rezone to Single Family Traditional (SFT)
Current Zoning: AG (Agriculture)
Type of Action: Legislative (rezone)
Staff Recommendation: Recommend approval to the Municipal Council of a rezone from Agriculture (AG) to Single Family Traditional-Planned Development (SFT-PD).

PROJECT

Rezone
The proponent is requesting a rezone of approximately 19.51 acres of property located from 1700 to 1900 West on the south side of 600 West Street. The property is currently zoned Agriculture (AG) and the proponent has requested a rezone into the Single Family Traditional zoning district. Staff is recommending the Planning Commission recommend the Municipal Council rezone the property into the Single Family Traditional - Planned Development (SFT-PD) zoning district.

Land use adjoining the subject property
North: County: Undeveloped
East: SFT: Green Rivers Subdivision
West: PUB: Sewer Lift Station/Undeveloped
South: County: Undeveloped

The 19.51 acres of property was annexed in 1998. The Logan City Annexation Policy Plan states that any properties that where within the Logan City Boundaries prior to the adoption of the plan are permitted to develop with restrictions that would be consistent with the Urban Service Area description of the plan. The sensitive lands maps in the Annexation Policy Plan show this parcel with areas of wetlands, floodplains, wildlife habitat, higher liquefaction potential, high water table, and state significant farmlands.

The proponent has proposed a rezone of this property into the Single Family Traditional zoning district, which zone requires a minimum 8,000 square foot lot. Staff is recommending that the property be rezoned into the SFT-PD district. The planned development overlay would require a higher quality development and would allow the proponent greater flexibility while designing the future subdivision. Staff has discussed this recommendation with the proponent. The proponent should come prepared to discuss their preference of zoning district with the Planning Commission.

According to the Land Development Code, "[t]he purpose of a planned development is to encourage a project that is designed and intended to be a quality development with a comprehensive theme and
character.” (Land Development Code §17.28.020[D]). Additionally, in order to approve a Planned Development, the Planning Commission must substantiate findings that the project is compatible with surrounding land uses, will not interfere with the use of properties in the area, and provides recreation areas and usable open space. Staff believes that a residential subdivision in this site should address issues such as neighborhood compatibility, preservation of open space, protection of sensitive resource areas such as flood plains and wildlife habitat, and other General Plan issues. Staff believes that the Planned Development requirements incorporated in the Land Development Code provide the Planning Commission with the tools to ensure that these issues are addressed when the property is subdivided.

**General Plan considerations**
The General Plan does not address development issues for this part of the City in any specific manner. Without specific direction from the General Plan, staff analyzes land uses in the neighborhood to determine if a rezone request would be a spot-zone, or if the rezone would be compatible with the existing uses in the area. Staff believes a rezone of this property to Single Family Traditional-Planned Development would result in a quality development that is consistent with the existing single family subdivisions located to the East of this property. The use would also be compatible with the Public zoned piece of property owned by the Parks and Recreation Department to the west of this property.

Although the General Plan does not cite specific direction for this area it does cite southwest neighborhood residents as desiring increased home ownership opportunities. In addition, this project if approved with the Planned Development overlay will require a review based on several broad issues discussed in the General Plan and outlined below:

1. **Preservation of open space.** The General Plan calls for the “preservation of important natural resources” (General Plan page 4-7). Additionally, Policy LU-20 seeks to “Preserve riparian vegetation on the Logan River and along tributary creeks and canals” (General Plan p 3-51).
2. **Neighborhood compatibility.** The General Plan requires that new development preserve and enhance neighborhood character (General Plan Goal LU-23, p. 3-58). Additionally, the General Plan requires new development to be compatible with existing neighborhoods, stating that “new residential neighborhoods present design opportunities during subdivision review” (General Plan p 3-47).
3. **Housing.** The General Plan encourages the development of housing affordable to all income brackets (General Plan Policy LU-11, p 3-43).
4. **Transportation.** The General Plan calls for a “safe and adequate roadway network for traveling to and through Logan” (General Plan Goal CT-1).

The Planning Commission will review all four of these issues during the subdivision and design review phase of this project to ensure compliance with the goals of the General Plan. The Planned Development overlay will allow the developer to design a project that is consistent with the goals of the General Plan by allowing flexibility to the site design standards.

**Development of the site**
The proposed rezone to SFT would allow the construction of a maximum of approximately 107 homes on 8,000 square foot lots. If approved, the Planning Commission would then review a subdivision for the project. Staff is concerned with this approach because it may not result in the proper review of issues such as protection of habitat, open space, and a project with the highest quality design. While the subdivision process could address these issues, there is no guarantee of that occurring if the property is rezoned to SFT.

The Planned Development requirements of the Land Development Code contain provisions that are intended to address issues such as preservation of sensitive areas such as wetlands and wildlife habitat.
The Land Development Code allows Planned Developments to “cluster” homes and obtain some relief from minimum lot sizes, and contains other provisions to enable the Planning Commission and Municipal Council to approve high-quality, well-designed subdivisions. For example, lots can be clustered and slightly reduced in size from the standard minimum lot sizes to avoid highly sensitive areas such as wetlands and flood plains. Additionally, clustering of homes would also enable larger open space areas to be preserved, providing residents and neighbors of the subdivision with quality open space. Clustering homes in such a manner also reduces the cost of roads and utilities as there is less ground to cover.

The Planned Development portion of the Land Development Code allows flexibility in applying standard subdivision and zoning requirements providing the subdivision is of high quality. If the property were rezoned to SFT with the Planned Development overlay, the Planning Commission would apply the Planned Development standards in reviewing a subdivision proposal.

Therefore, for the reasons outlined above, staff recommends two motions:

1. Staff recommends that the Planning Commission approve a motion to recommend denial of the rezone request to SFT to the Municipal Council for the property located at approximately 1700 to 1900 West 600 South Street; TID #02-077-0001.

2. Staff recommends that the Planning Commission approve a motion to recommend approval of the rezone request to SFT-PD to the Municipal Council for the property located at approximately 1700 to 1900 West 600 South Street; TID #02-077-0001.

AGENCY AND CITY DEPARTMENT COMMENTS
No comments were received from City or County departments or agencies.

PUBLIC COMMENTS
Notices were mailed to 10 property owners located within three hundred feet of the subject property. At the time the staff report was prepared, the Department of Community Development had received no comments.

RECOMMENDED FINDINGS FOR APPROVAL
The Planning Commission bases its decisions on the following findings supported in the administrative record for this project:

1. The River Trails zone amendment has been revised and amended by the conditions of project approval to address the issues and concerns raised within the public and administrative records.

2. The River Trails zone amendment has been revised and amended by the conditions of project approval to conform to the requirements of Title 17 of the Logan Municipal Code, the City of Logan Public Works Standards and Specifications, and the requirements of various departments and agencies.

3. The River Trails zone amendment conforms to the requirements of Title 17 of the Logan Municipal Code.

4. The River Trails zone amendment is compatible with existing land uses and zoning.

5. The River Trails zone amendment is consistent with the goals and policies of the Logan General Plan.
