REPORT SUMMARY...

Project Name: Harris Commercial Service Rezone
Proponent/Owner: Matthew Harris / Eliason Packing Company
Project Address: 1000 W 200 S
Request: Rezone from COM to CS
Current Zoning: Commercial (COM)
Date of Hearing: August 8, 2019
Type of Action: Legislative
Submitted By: Aaron Smith, Planner II

RECOMMENDATION
Staff recommends that the Planning Commission recommend approval to the Municipal Council for a Rezone of approximately 15.64 acres of property located at 1000 W 200 S (TIN#05-064-0028) from Commercial (COM) to Commercial Service (CS).

Land use adjoining the subject property

REQUEST
The proponent is requesting to rezone one (1) parcel that is approximately 15.64 acres from COM to CS. The proponent has proposed the rezone to allow for more flexibility in developing the land. The land is flat and undeveloped with wetlands located on a portion of the western half of the property. Both the 200 S and 1000 W frontages are unimproved, with soft shoulders and no sidewalk or curb. The area around the property has a variety of uses, including an electric supply company, a plumbing contractor, storage units, and single family homes across 200 S.

GENERAL PLAN
The Logan City Future Land Use Plan (FLUP) found inside the Logan City General Plan designates the site as Mixed-Use Center (MUC). The MUC land use designation is described as having high concentrations of commercial and residential uses mixed together into compact urban and walkable development patterns. When creating compact development footprints, the City of Logan can concentrate growth inwards and upwards and relieve suburban style development pressures on surrounding rural areas.

While the proposed CS zoning is not mixed use by nature, it is similar to, and compatible with, the surrounding land uses.

ZONING
COM – Current Zone
The COM zone is intended for retail, service, and hospitality businesses that serve city-wide or regional populations. Residential development is allowed in the zone; however, free standing residential buildings are not permitted.

CS – Proposed Zone
The CS zone fills a need between industrial and commercial land uses. CS areas provide alternative locations for light manufacturing, warehousing, wholesaling, or other uses that...
support construction and manufacturing trades that are typically service oriented. The CS zone does not allow for residential uses.

Generally, the CS zone is less restrictive than the COM zone in regard to permitted uses, especially industrial uses. Of note is that commercial storage units, vehicle storage, automobile repair, heavy truck sales, kennels, and most industrial uses are allowed in the CS zone.

Changes in use from COM to CS are highlighted in the following table from LDC 17.11.030

Red = Change from Permitted (P) or Conditionally Permitted (C) to Not Permitted (N). These are uses that would no longer be permitted after rezone to CS

Green = Change from N to C or P; These are uses that would now be permitted or conditionally permitted after rezone to CS.

Yellow = Change from P or C to P or C. These are uses that would be permitted, though may change from permitted to conditionally permitted, or vice versa.

</tbody>
</table>
In addition to uses, some development standards would change as well. The maximum building height for the CS is 38', while COM is 40' or up to 55' with additional setbacks. Minimum building setback are similar between to the two zones. Building fenestration and open space are the same between the two zones. The CS zone does not allow for front yard parking.

Both the COM and CS zones are subject to height transitions when adjacent to single family homes. The height transition would limit building height to 35’ at the front setback and allow an additional 1’ in height for every 2’ of additional setback. With a maximum building height of 38’ in the CS, the height transition will have little effect on the property if rezoned. In addition to height transitions, commercial and industrial development across the street from a residential zone must meet increased setbacks standards that match the adjacent residential setbacks.

**SUMMARY**
This 15 acre site is surrounded by a variety of uses, many of which fit into the description of the CS zone. While the FLUP identifies the site, and the entire surrounding block, as MUG, it is uncertain if this site could ever be a viable mixed-use project as the site fronts a highway and there are commercial services to the east and west. Regarding single family homes to the
south, there is precedent in this area of zoning CS adjacent to single family homes at the Westfield development a block west of this location. Overall, this rezone would continue the adjacent land uses to the east and west of the project site, and neighborhood impacts from CS uses will be mitigated through Design Review and Conditional Use Permit process.

AGENCY AND CITY DEPARTMENT COMMENTS
No comments.

PUBLIC COMMENTS
Notices were mailed to property owners within 300 feet of the subject property. As of the time of this report, no comments have been received.

PUBLIC NOTIFICATION
Legal notices were published in the Herald Journal on 7/27/2019, posted on the City’s website and the Utah Public Meeting website on 7/26/2019, and noticed in a quarter page ad on 7/20/2019, and a Public Notice mailed to property owners within 300’ we sent on 7/19/2019.

RECOMMENDED FINDINGS FOR APPROVAL
The Planning Commission bases its decision on the following findings supported in the administrative record for this project:

1. The CS zone uses and development standards are similar in nature to the COM zone
2. Neighborhood compatibility will be reviewed on a project basis through the Design Review and Conditional Use Permit processes.
3. The location is compatible with the purpose of the CS zone.
4. The subject property is in an area and surrounded by streets and infrastructure that can handle and appropriately serve Commercial Service developments.
5. The proposed CS zone is in an area with established CS uses.

This staff report is an analysis of the application based on adopted city documents, standard city development practices, and available information. The report is to be used to review and consider the merits of the application prior to and during the course of the Planning Commission meeting. Additional information may be revealed by participants at the Planning Commission meeting which may modify the staff report and become the Certificate of Decision. The Director of Community Development reserves the right to supplement the material in this report with additional information at the Planning Commission meeting.

Minutes of the meeting for the Logan City Planning Commission convened in regular session on Thursday, August 8, 2019. Chairman Nielson called the meeting to order at 5:30 p.m.

**Commissioners Present:** Roylan Croshaw, Sandi Goodlander, Dave Newman, Tony Nielson, Eduardo Ortiz

**Commissioners Absent:** Regina Dickinson, Jessica Lucero

**Staff Present:** Mike DeSimone, Russ Holley, Aaron Smith, Debbie Zilles, Kymber Housley, Paul Taylor, Bill Young, Jeannie Simmonds (Council liaison)

Minutes from the July 11, 2019 meeting were reviewed. Commissioner Ortiz moved to approve the minutes as submitted. Motion seconded by Commissioner Croshaw. Approved unanimously.

**PC 19-023 Harris Commercial Service Development [Zone Change]** Matthew F. Harris/Eliason Packing Company, authorized agent/owner, request a rezone of 15.64 acres from Commercial (COM) to Commercial Services (CS) to allow for more flexibility in developing the land located at 200 South 1000 West; TIN 05-064-0028.

**STAFF:** Mr. Smith reviewed the request to rezone a ~15.64-acre parcel from Commercial (COM) to Commercial Service (CS). The proponent proposes the rezone to allow for more flexibility in developing the land. The land is undeveloped with wetlands located on a portion of the western half of the property. Both the 200 South and 1000 West frontages are unimproved, with soft shoulders and no sidewalk or curb. The area around the property has a variety of uses, including an electric supply company, a plumbing contractor, storage units, and single-family homes across 200 South.

The current COM zone is intended for retail, service, and hospitality businesses that serve citywide or regional populations. Residential development is allowed in the zone; however, free standing residential buildings are not permitted.

The proposed CS zone fills a need between industrial and commercial land uses. CS areas provide alternative locations for light manufacturing, warehousing, wholesaling, or other uses that support construction and manufacturing trades that are typically service oriented. The CS zone does not allow for residential uses.

Generally, the CS zone is less restrictive than the COM zone regarding permitted uses, especially industrial uses. Of note is that commercial storage units, vehicle storage, automobile repair, heavy truck sales, kennels, and most industrial uses are allowed in the CS zone.

Changes in use from COM to CS are highlighted in the following table from LDC 17.11.030:

Red = Change from Permitted (P) or Conditionally Permitted (C) to Not Permitted (N). These are uses that would no longer be permitted after rezone to CS.
\textbf{Green} = Change from N to C or P; These are uses that would now be permitted or conditionally permitted after rezone to CS.

\textbf{Yellow} = Change from P or C to P or C. These are uses that would be permitted, though may change from permitted to conditionally permitted, or vice versa.

In addition to uses, some development standards would change as well. The maximum building height for the CS is 38’, while COM is 40’, or up to 55’ with additional setbacks. Minimum building setbacks are similar between to the two zones. Building fenestration and open space are the same between the two zones. The CS zone does not allow for front yard parking.

Both zones are subject to height transitions when adjacent to single-family homes. The height transition would limit building height to 35’ at the front setback and allow an additional 1’ in height for every 2’ of additional setback. With a maximum building height of 38’ in the CS, the height transition will have little effect on the property if rezoned. In addition to height transitions, commercial and industrial development across the street from a residential zone must meet increased setback standards that match the adjacent residential setbacks.

This site is surrounded by a variety of uses, many of which fit into the description of the CS zone. While the Future Land Use Plan (FLUP) identifies the site and surrounding block as Mixed-Use (MU), it is uncertain if this site could ever be a viable mixed-use project because it fronts a highway and there are commercial services to the east and west. Overall, this rezone would continue the adjacent land uses to the east and west of the project site, and neighborhood impacts from CS uses will be mitigated through Design Review and Conditional Use Permit process.
**PROPOINENT:** Matt Harris said he wants to make sure the zone can be changed before he purchases the property. He believes the CS zone will allow him to develop a successful project.

Commissioner Ortiz asked if Mr. Harris had a specific project in mind. Mr. Harris is still consulting on the best use, this may be a good area to lease to developing businesses and have warehouse/storage uses. The flexibility of the CS zones allows for excellent uses for this property.

**PUBLIC:** None

**COMMISSION:** None

**MOTION:** Commissioner Croshaw moved to forward a recommendation for approval to the Municipal Council for the proposed zone change as outlined in PC 19-023 based on the findings for approval as listed below. Commissioner Ortiz seconded the motion.

**FINDINGS FOR APPROVAL**

1. The CS zone uses and development standards are similar in nature to the COM zone.
2. Neighborhood compatibility will be reviewed on a project basis through the Design Review and Conditional Use Permit processes.
3. The location is compatible with the purpose of the CS zone.
4. The property is in an area surrounded by streets and infrastructure that can handle and appropriately serve Commercial Service developments.
5. The proposed CS zone is in an area with established CS uses.
