Cache Solar Discount Program

Cache County, UT -- The Cache Clean Air Consortium is pleased to announce the launch of The Cache Solar Discount Program, solar bulk purchase program for residents of Cache County. Members of the Cache Clean Air Consortium (CCAC) initiated the Cache Solar Discount Program in order to facilitate a clear and straightforward process for Cache Valley citizens to obtain discounted pricing for residential solar photovoltaic (PV) installations by combining purchases.

In short, the Cache Solar Discount Program does the following:

- Provides discount pricing for residential solar rooftop installations based on a bulk rate provided by the selected contractor for 2015.
- Provides a simple, streamlined process for homeowners to purchase a system and obtain state, federal, and other applicable incentives.
- Provides proven, quality products and excellent service.

Cache County residents who participate in the program should expect a simple purchasing process, installation of a high quality turnkey solar PV system, and assistance in obtaining state and federal tax incentives.

The process is as follows:

- ✓ Step 1: Sign up on the program website (www.cachesolar.org) where we obtain your contact information and preliminary site information. Or, to obtain more information about the program before you sign up, attend one of the scheduled workshops:
 - April 23rd at 7pm at the Logan Library

- June 3rd at 6pm at Logan City Hall
 - July 9th at 7pm at the Logan Library
-
- ✓ Step 2: A program representative will contact you with a preliminary cost proposal and free digital site assessment. Receive preliminary cost proposal- Free Digital Site Assessment. Find out your solar potential!

 - ✓ Step 3: Program representatives will provide on site evaluation & final detailed project proposal including a finalized panel layout, production estimates and system details.
 - *Note: This step requires a \$35.00 site assessment/engineering fee. The full fee amount will be applied towards the final cost of your installation should you choose to install.*

 - ✓ Step 4: Sign the contract and receive a worry free installation.

Residents who are interested in obtaining more information about this program should send an email to solar@gardner-energy.com, visit the program website at www.cachesolar.org, visit with program representatives at the Logan Library Earth Day Celebration on April 18 from 11:00-3:00, or attend one of the solar workshops listed above.

CCAC is a community based workshop that facilitates community partnerships that result in actionable strategies to improve air quality in the Cache Valley region.
